Hello Tanya,

Next week Bob Pender will be at your office for the coordination meeting. I wanted to make sure you were aware that I have put Rolling Knolls on the funding requested spreadsheet. At the moment, CDM has about \$35,000 left on their current task order. We don't foresee any upcoming large efforts except for field oversight. With that work expected to start in the next month, we will need additional funds in January 2015. At this time I estimate we will need approximately \$60,000.

Please let me know if you have any questions or need me to provide more information.

Thank you,
Amy

p.s. I'll be in your office Wednesday afternoon of this week for two project meetings. If you are available, I would like to stop by and say hi for a few minutes.
